Two find haven in Madison

By WALTER STRANGE
Press-Record Staff Writer

Two South Vietnamese refugees are presently living with friends, Mr. and Mrs. Dale Hensley, 1200 Alton Ave., Madison, and one already has obtained work.

Tran Van Tuyen, 30, formerly a lieutenant in the medical corps of the South Vietnamese army, began work for a local contractor yesterday.

Nguyen Thi Khue Dung, 25, better known as "June," is a graduate of Saigon University, where she majored in pharmacology.

Hensley, who is sponsoring the two, met them and became a friend while he was working in Vietnam in 1971 as a civilian helicopter mechanic for the United States government.

While in Saigon, Hensley had met and married his wife, their daughter, Christina, was born in Vietnam.

Tran Van Tuyen's mother was Christina's godmother at the baby's christening.

The refugees arrived at Ft. Chaffee, Ark. April 27 after fleeing from their country when North Vietnamese Communists gained control. They gave authorities the names of their friends living in Madison.

"I received a telephone call from Catholic Charities at Ft. Chaffee and they asked me if I knew June and Tran, and whether I could sponsor them," Hensley told the Press-Record.

"I told them I would certainly sponsor them, and we made arrangements for them to come to live with us."

"We were fortunate to have Douglas Contracting of Granite City offer to train Tran in electronics, which is his trade. He started with them Monday."

VIETNAMESE REFUGEES IN MADISON.

Nguyen Thi Khue Dung, left, and Tran Van Tuyen, both from Saigon, are currently residing with Mr. and Mrs. Dale Hensley, 1200 Alton Ave., Madison. They are shown here yesterday evening. Hensley met the two when he was working for the U.S. government in South Vietnam.

Thomas funeral home planned

Plans for a new funeral home in Granite City — the Bob Thomas Memorial Mortuary — were announced yesterday by Robert Thomas Jr.

The announcement was made exactly one year after the senior Mr. Thomas' death. The late Mr. Thomas was in the mortuary profession 35 years in Granite City.

"My father's purpose always was to better serve the people of the Quad-Cities and now, in the same tradition, we are designing this new facility and dedicating it to him," the son commented.

The new funeral home is to be open about Aug. 1 in the former Maryland Mark building on the northeast corner of Ponton Road and Franklin Avenue.

The building is being purchased and remodeled in partnership with Dan, David and Don Partney Jr. After the building is completed, Thomas will oversee all operations of the funeral home.

Renovation of the building will begin in the near future. A small building at the rear of the lot is to be demolished and the exterior of the main building will be redesigned in a Spanish style.

The interior furnishings will use a Mediterranean decor. There will be a spacious chapel with a seating capacity for 120 designed to be suitable for any denomination.

There also will be three large state rooms designed for an atmosphere of tranquility, Thomas said. A coffee lounge area also will be provided.

Paved parking for 75 cars is to be provided on the existing lot, with access to the parking area from either Ponton Road or Franklin Avenue.

Plans for staffing the facility have not been completed, Thomas said.

After the funeral home opens, planning will begin for providing 24-hour per day ambulance service, he said.

A downturn began this year when some previous orders for steel were withdrawn by the customers due to the nationwide economic recession.

An added factor is the May 15 shutdown of the "B" blast furnace.

The number of layoffs is being compared with 1968, when both blast furnaces were out of operation simultaneously.

The B furnace was brought back on line May 27.

Estimate mill's layoffs at 1,000

A Granite City Steel spokesman on Saturday estimated that layoffs of hourly and salaried employees exceeded 1,000. Previous announcements had described layoffs as "in the hundreds."

Normal employment at the local division of National Steel Corporation is approximately 5,000.

The current layoff estimate indicates that the present work force regularly employed may be about 4,000. "Actual employment will vary on a week-

Propose courts' cut back

The Granite City Council will "voluntarily" support a proposal to reduce court services by the Third Judicial Circuit in the Granite City Court, it was decided Monday night after council members were in motion of such a move.

The decision, acting on a motion by Alderman Ronald Coleman of the Seventh Ward, approved a resolution opposing a proposed 50 per cent cut in the activities of the Granite City branch of the Circuit court.

The council also instructed City Clerk Robert Stevens to prepare in the city's behalf a letter of protest to be sent to the circuit judges, and in a related action asked Mayor Paul Schuler to make personal contact with the judges.

The council acted after a letter sent by Charles W. Chapman, secretary of the Tri-City Bar Association, to Alderman Everett Morlen, chairman of the council's Police Committee, was read to the aldermen.

Chapman told the council that the circuit court proposes to cut the present five-day-per-week court schedule in Granite City to two and one-half days. This, he explained, would require police, witnesses and others involved in court cases to go to Edwardsville for court appearances at a considerable cost of time and money.

Council members objected that the cost in overtime for police appearing as witnesses would be substantial in itself, and that inconvenience to persons required to appear in those cases rescheduled from Granite City to Edwardsville would be extensive. Chapman said the Tri-City Bar Association opposes any further reduction in court services.

Chapman's letter said: "As we are sure you are aware, the court system in Madison County and within each municipality of the county has a direct effect on the people of this area. While Edwardsville is, of course, the county seat where a great deal of the court work is accomplished, in past years, the residents of communities within our county have been afforded the service of courts in close proximity to their homes."

Sometimes these courts routinely provide jury trials, preliminary hearings, divorces and other services which affect the citizens of the immediate area in which the courts were located. Courts have been established in the past in Granite City, East Alton and Collinsville for the purpose of providing the forum for the presentation of the types of problems outlined above.

As you can see, the problems resolved by these courts range from major civil litigation to small claims matters which can be handled by individuals alone.

In view of the importance of these courts to the citizens of Madison County, we thought that the effect of a recent proposal should be brought to your attention. The chief judge of this circuit is proposing to further reduce the services provided by the courts.

For example, in Granite City, there is presently a judge available five days a week to hear matters and process the necessary work load. The proposal, the chief judge would reduce the availability of the court in Granite City to the citizens of that area by fifty (50) per cent, with a judge to be in Granite City only two and one-half days per week. Similar reductions in the availability of the outlying courts in the other areas are also contained in the proposal.

The avowed purpose of the proposal is to increase efficiency, but its actual effect will be to deprive the residents of Madison County of a valuable service. On any case in which police officers, witnesses or parties are required to travel to Edwardsville rather than have the matter heard in the immediate local area, the costs in wages, time and mileage, of course, increases.

With the energy crisis that has been in existence for sometime, and potential increases in gasoline costs, the expense of the additional travel will undoubtedly increase. Further, it will often be necessary for local police officers to travel to Edwardsville to present testimony in routine cases, which will often result in increased costs to the cities in the form of overtime charges.

It is because of the potential increased costs and the actual reduction in services available and applies to fire districts. Senate action is pending.

The Senate on Friday defeated 27-18 a bill establishing

autonomy to Southern Illinois University at Edwardsville by providing the local institution with its own Board of Trustees

passed the Illinois Senate on Friday by a vote of 27-18. Sen. Sam M. Vadalabene, sponsor of the legislation, commented, "This is a great day for our region." Action on the bill is pending in the Illinois House.

"Finally, the last vestiges of the unbalanced court with Carbondale are being severed, now SIUE will be able to grow in terms of the needs and aspirations of the community it was founded to serve."

"The public will be represented by a board acutely and immediately sensitive to the local community," the senator asserted.

"No one realizes better than I that this legislation has been subject to criticism. I can only wish that those critics might attend to the voices that have been raised in support of letting SIUE stand on its own."

Vadalabene continued.

"Every important constituency — including faculty, students, alumni and important civic leadership — marshaled strong arguments on behalf of letting the university here have its own board."

"Evidently those arguments were more persuasive to the Senate than those raised by certain bureaucratic agencies grinding their own axes, or by sideline theorists looking for educational utopias."

"From the very beginning of planning for an institution of higher education in this area, there was a basic commitment that the institution would be independent as soon as it was ready for such independence."

"In my judgment, that moment is long past, and this action is long overdue," Vadalabene said.

"I think there is a strong consensus in the metropolitan area that agrees with me, even though some self-styled opinion shapers have other ideas."

"This is an important moment in the history of a university that I believe is going to grow to greatness."

"Now it can finally realize the fullness of its potential, while at the same time meeting the needs and hopes of those citizens who take advantage of its resources."

"It can only do so with a Board of Trustees sensitive to the public the institution was

back into service this year after being down for 17 days in late January and early February. Molten iron had severed water pipes in the tapchale area Jan. 14; injuries were avoided in the eruption of steam, but two adjoining hearth staves were damaged, requiring emergency repairs.

Work was started last week to reline and rebuild the B furnace as part of the usual brick replacement procedure.

In addition, activity between now and mid-September will include installing a new semi-automatic charging system for putting raw materials into the furnace (making it similar to the blast furnace), and installing a coke breeze handling system.

The hearth size will be changed to match the A furnace hearth diameter of 27 feet three inches, and ceramic brick will be placed in the area between the hearth and the stack.

Planning Commission revamp passes Senate

Legislation to update the functions and powers of the Southwestern Illinois Metropolitan and Regional Planning Commission Act, Senate Bill 1131, has passed the Senate, its sponsor, State Sen. Sam M. Vadala, said Friday.

"The original law creating this agency was passed in 1963," Sen. Vadala noted.

"Since that time, we have become aware of a good many problems and concerns that should be included in our planning for the future of the area."

"Matters such as air and overall environmental quality, and health planning, did not seem as pressing then as they do now. Further, this law increases the scope of the

coverage of the agency to include Clinton County.

"It is clear that our recognition of our situation — from a regional point of view — has broadened and matured over the years," Sen. Vadala continued.

"In order to effect these changes, we have also provided for modification of certain operating procedures, as well as some changes in the composition of the commission and the manner of selecting its members."

"Finally, we have also given the agency the power to borrow funds necessary to further its important mission."

"This act could serve to bring modern techniques and more representative understanding to this most important agency," the local senator concluded.

Prayer June 1 at Washington for this state

The people of Illinois will be included in prayers said at Washington Cathedral on Sunday, June 1, according to Mrs. Arven Saunders, regional chairman of the National Cathedral Association for Illinois.

Illinois, the 21st state to be admitted to the Union, will be the focus of a special prayer written by Dean Francis B. Sayre Jr.

Senator Stuart Symington of Missouri was recently elected president of the association, whose members from all over the world help to extend the cathedral's national program.

At the 1974 NCA meeting in Washington, Mrs. Saunders noted, the association voted to endeavor to raise one million dollars to help build the west gallery of the cathedral.

When finished in mid-1977, the gallery will be 112 feet high, the equivalent of ten floors of a modern building, and will afford visitors to the cathedral a dramatic view of the capital, the national monuments and across the Potomac River to the mountains of Virginia.

Built on the highest hill in Washington, the cathedral was begun in 1907 and is rapidly nearing completion. In the winter of 1975-76, the full length of the nave will finally be opened, doubling present seating on the main floor of the structure.

The cathedral will thus be ready to accommodate the year-long celebration of the bicentennial of the United States in 1976.

The twin towers of Saints Peter and Paul at the West end of the cathedral are scheduled to be topped off in 1986. With this goal achieved after more than 70 years' work, the last great Gothic cathedral ever to be built will be completed.

Washington Cathedral is the official seat of the presiding bishop of the Episcopal Church and the Episcopal bishop of Washington, but it receives no financial aid from the Episcopal Church or from any government source. It is being built and is maintained by gifts of individuals, families and groups.

Parade of Flags Friday

The Memorial Day holiday to honor deceased servicemen who died serving the United States will be observed Friday morning, May 30, with special services conducted in Memorial Park, across from St. Elizabeth Hospital, by the Quad-City Chapter 33 of the Disabled American Veterans.

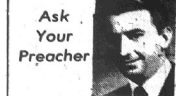

The annual Parade of Flags sponsored by the DAV chapter will depart from the DAV Hall, 1417 Nineteenth St., at 10 a.m. and proceed down Grand Avenue to Memorial Park, according to Lynn Mitkos, chairman of the event.

The Scott Air Force honor guard and drill team will lead the procession, and Miss Jennie Powderly, South High School student, will sing the national anthem.

For more information relating to the services, area residents may call Mrs. June Schlegler at 677-4506 or the DAV Club at 876-7816.

The observance of Memorial Day began unofficially during the Civil War when Southern women placed flowers on graves of fallen Confederate

and Union soldiers. The first official services were held at Waterloo, N.Y., in 1868, when the late General John A. Logan, commander of the Army, called on its members to decorate the graves of Union soldiers on May 30. The practice later was extended to honor deceased servicemen of all wars.

Letter From Springfield

By Rep. Everett G. Steele

Heavy Opposition To Congressional Remap
Despite recent approval by the Senate Election Committee, and sponsorship by Senate President Cecil Pate, the proposed, Feaginism of congressional districts is not expected to be passed in the legislature.

A recently held closed-caucus of Republican legislators in the House of Representatives resulted in virtual unanimous opposition to the redistricting plan.

This means that only approximately 15 additional votes from Downstate Democratic legislators would be needed to defeat this proposal. This appears likely.

The proposed redistricting would severely change Congressional district boundaries in Madison County, resulting in the possible loss of Congressman Pindley as a representative in the northern part of Madison County.

This territory would be changed to include part of Congressman Shipley's district. Or under another plan, Congressman Melvin Price's district would be shifted to include all of western Madison County, under which plan he would lose part of the Scott Field area he now represents. These proposals deserve vigorous opposition in the legislature for the following reasons:

- 1) Unnecessary changes of existing districts makes it difficult for the average citizen to identify his congressman.
- 2) Accurate population figures are not available at this time, in between census periods, to correctly reflect population shifts.
- 3) Frequent changes in boundaries are undesirable, and interfere with the orderly functioning of government.

MAIL FROM CITIZENS OPPOSES GUN LAWS

The greatest volume of mail received in recent weeks in the General Assembly has been on the subject of gun control.

Citizens have expressed strong disapproval of proposed legislation which would limit the right of a citizen to own a gun, or to buy ammunition. Three such bills were soundly defeated in the past week, resulting from these strong citizen objections.

The need in the crime area is not for laws which would disarm the law-abiding citizen, but for stricter penalties pertaining to the armed criminal. To accomplish this, two bills have passed the House and are

Rites held for Mrs. Saunders

Funeral services were conducted Wednesday in Albuquerque, N.M., at the Kirkland Air Force Base Chapel for Mrs. Agnes (Marcovsky) Saunders, 51, of Albuquerque, formerly of Granite City.

Mrs. Saunders and her husband, Harold, were enroute to their daughter's home, Mrs. Christina Squires, to visit a new grandson, when they were involved in a two-car accident Sunday, May 18. Mrs. Saunders was killed instantly.

Born in Granite City, Mrs. Saunders resided here until about 20 years ago. The family resided in New Mexico for the past 15 years. Mr. Saunders is a retired Army career man.

awaiting further action in the Senate. One would deny bail to a person committing a crime with the use of a gun. Another bill would require a mandatory sentence for a repeat offender who commits a crime with the use of a gun.

ILLEGAL ALIEN AND OBSCENITY BILLS PASS

Two House Bills which I have co-sponsored passed the House of Representatives this past week.

House Bill 500, co-sponsored by Representatives Polk, Steele and Williams, passed by a vote of 123 to 16. It would curtail and restrict obscenity in outdoor movie theaters.

The second law, House Bill 160, seeks to alleviate unemployment in Illinois by making it unlawful to hire an illegal alien, without first requesting evidence of citizenship or proper visa information.

This bill passed by a vote of 104 to 32. At the present time, 400,000 illegal aliens are employed in Illinois. With an unemployment rate of 8 per cent, a number of legal residents and taxpaying citizens are being deprived of otherwise available jobs, by persons who have entered our country or state illegally without proper entry permits or visas.

This bill would reduce improper and unfair competition for jobs in our state.

MHS senior gets scholarship

The Madison County Legal Secretaries' Association presented its first annual scholarship award to a Madison High School senior at its dinner meeting at the Stratford Hotel in Alton.

Receiving the \$300 scholarship award was Linda Glasper, daughter of Mr. and Mrs. Allen C. Glasper, Sr. of Bend Road. Miss Glasper, who will graduate from Madison High School in June, plans to become a legal secretary and will attend Miss Hickey's School for Secretaries, St. Louis, to further her education. The award was presented by Mrs. Betty Cobb, chairman of the Legal Education and Scholarship Committee.

The newly established scholarship award will be given each year to a Madison County graduating senior, interested in becoming a legal secretary, legal assistant or a court reporter; and who has a need for financial assistance to further his or her education. The amount of the award will be determined annually by the majority vote of the membership, with the money to be paid to the school of higher education selected by the recipient of the scholarship.

Steel shipments down, imports up

Imports accounted for 16 per cent of the nation's steel supply during the first quarter of 1975—and their impact on domestic stainless and tool steel markets was even greater.

The American Iron and Steel Institute said during the week-end that foreign steel accounted for more than 22 per cent of this country's stainless steel supply, and more than 27 per cent of the tool steel supply in the first three months of this year.

During the first quarter of 1975, domestic steel shipments totaled 22,613,000 tons. In these three months, imports reached 4,147,000 tons.

During the first quarter of last year, mills in this country shipped 28,790,000 tons. The 2,540,000 tons of foreign steel imported during that period constituted less than nine per cent of the U. S. supply of steel.

March 1975 steel shipments were 7,204,000 tons. First quarter 1975 figures show 3,654,000 tons shipped to automotive customers (compared to 4,691,000 in the first three months of 1974).

Shipments to steel service centers totaled 4,873,000 (6,134,000), construction and contractors produced 3,838,000 (4,812,000), machinery and industrial and electrical equipment 2,278,000 (2,639,000).

Urges better security in moving nuclear weapons

Expressing concern over a report that the security procedures employed by the Army and the Navy in the transportation of nuclear weapons have been lax, Melvin Price (D-Ill.), chairman of the House Armed Services Committee, has ordered the Services to inform him of the action they have taken to improve security precautions. He noted that a recent report of the General Accounting Office reflected deficiencies in protection of the weapons, convoy security and facilities for convoy communications.

"We must ensure that every precaution is taken to prevent nuclear weapons from falling into the hands of domestic or foreign terrorists," Price said. He added that while terrorist groups might not be competent to use a nuclear weapon, he wanted to preclude any possibility that they might be able to gain possession of a weapon and possibly use it for blackmail or for destructive purposes.

Price said, "We have seen that terrorists have little regard for life or property and will use any means to accomplish their distorted ends."

Price noted that the report praised the transportation procedures employed by the former Atomic Energy Agency. He stated that he believes the Army and the Navy should also adopt those practices. He said he has directed the Army and the Navy to specify the measures they have taken to correct each of the deficiencies noted in the report. He noted that the actions already taken by the services do not provide adequate safeguards, Price said, and he will take legislative action to insure compliance.

Webster PTA honors Clyde Lee

Don Seltzer, a 19-year member of Webster PTA who also served as president on three separate occasions, was the installing officer last week at the PTA's final meeting of the current school year.

New officers who will assume their duties in September, are: Mrs. Barbara Schwertmann, president; Mrs. Ruth Dolan, vice president; Mrs. Cathy Gowan, secretary and Mrs. Barbara Blanton, treasurer.

Tribute was paid to Webster Principal Clyde Lee, who is the retiring PTA president. Seltzer noted the help Lee has provided to the school and PTA organization during his years of service at Webster.

Mrs. Lee was asked to present the past president's pin to her husband.

Lee led the opening flag ceremony and Mrs. Marilyn Frith offered the PTA Prayer.

It was announced that sixth grade pupils will travel to Springfield Thursday and that the school picnic plans are complete.

Addressing the sixth grade students at the meeting, Principal Lee commented that with completion of the sixth grade, one step in their education has now ended and a new one will commence in September at Coolidge Junior High School.

Louis Mehelic, a sixth grade teacher, extended congratulations to the departing students and Mrs. Lena Seltzer gave each a special memento.

Refreshments were served by the sixth grade parents in the school cafeteria following the program.

Liberty Bell Park in Jerusalem

Sixteen members and a guest, Mrs. Alline Patterson, attended the local Daughters of the American Revolution chapter's final meeting of the current season at Charlie's Restaurant last week. Mrs. Ruth McCarty, regent, led the pledge of allegiance.

Mrs. Eva Meier announced a park is being established in the center of Jerusalem to be named the Liberty Bell Garden Park; its focal point will be a replica of the Liberty Bell of America. The park is being established as an expression of the esteem with which the people of Jerusalem hold for the American people, Mrs. Meier explained.

Miss Nelle Hart reported on national defense and distributed leaflets to study. Mrs. Emma Schoen, chapter registrar, asked members to gather information concerning their DAR ancestor for compilation in a book.

Mrs. Mildred Whyers presented a program on one of her ancestors, Richard Omohundro, who was an ensign in the Armed Forces during the American Revolutionary War.

GOOD NEWS for folks who have no pension plan!

Individual Retirement Accounts

The new Pension Reform Act allows millions of Americans, who have not had the benefits of an employer or union sponsored pension plan, to set aside Tax-Free dollars for their retirement. The Individual Retirement Account (IRA) is an important part of the new Act.

The big tax-savings in the IRA plan are available to you if you are not now actively participating in a tax-qualified pension plan. And working for a company that has a pension plan does not disqualify you until you are actually included in the company's plan.

The IRA plan is open to both full-time and part-time employees, including a spouse working full or part time, students with part time jobs, and self employed individuals not covered by the Keogh plan.

Come in, write, or phone 452-1313. Ask for Larry Gipe or Harley Davis. They'll be glad to answer all your questions and you'll get informed advice in putting this plan to work to your greatest advantage. Keep in mind that the sooner you start, the earlier your savings begin to earn and grow.

Added GI Bill college rights

The Veterans Administration has issued a reminder that nine additional months are available to some veterans and military service personnel who are eligible for GI Bill eligibility before receiving their undergraduate college degrees.

VA officials estimate 13,000 trainees will take advantage of the new benefit at a cost of \$26.3 million during the first year. Record GI Bill enrollments of 2.4 million in fiscal year 1974 included 1.3 million college trainees.

The nine-month extension was approved Dec. 3 under PL 93-508 for veterans and in-service personnel who meet certain prerequisites. For example, the extension is available only to those originally eligible for 36-month entitlement, and they must have exhausted it while enrolled in a bachelor or first professional degree program. Officials explained that applicants who have associate degrees are eligible for the extension, but not those who have — or who are eligible to receive — their bachelor or first professional degree.

Nor can an applicant with an associate degree use the extra time to earn a second associate degree.

Another restriction is that persons eligible for education benefits under more than one law may not receive more than 48 months of training plus an extension to the end of the enrollment period.

VA officials also said that applicants who hold graduate degrees may not use the extension for either graduate or undergraduate study. Interested eligible persons may contact a VA office or a veteran's service organization.

Baseball Braves open with 10-3, 6-5 wins

The Granite City Braves, a junior division baseball team, in a last-minute schedule change during the weekend defeated Wood River 10-3 on Friday and then edged Madison-Venice American Legion Post 307 at Wilson Park on Saturday, 6-5.

The Braves were originally scheduled to play the St. Louis-based Ballwin Brewers on Saturday, but a tournament in Missouri forced the Brewers to postpone the game.

At Wood River, the Braves raced to a 7-0 lead behind the hitting of Mike Clark, Randy Smith and Tom Manogian. Pitchers John Slay and John Lakin scattered seven hits as Slay picked up his first victory.

To the home opener, the Braves jumped to a 3-0 lead on a homer by Clark and a pair of errors that allowed Smith and Manogian to score.

Madison-Venice got a run in the second and tied it in the

third with hits by Emmitt Timmons and Pete Pecuska. Jim Jackson singled to lead off the Braves' fourth, Ed Prazama drew a walk and both runners advanced on a wild pitch, with Jackson scoring on a throwing error.

Tom Stajdhar, the Braves' pitcher, then singled to drive in Prazama for a 5-3 Granite City score. The Braves added a run in the sixth and held on for the victory despite a Post 307 rally.

Mike Clark, Braves shortstop, was spiked in the left wrist in the second inning. He was taken to St. Elizabeth's Hospital, where several stitches were required.

He is expected to be ready to play, however, when the Braves meet the Laclede Station American Legion team here Wednesday at 6 p.m.

Post 307's regular season is scheduled to begin Saturday at Collinsville at 2 p.m.

Mercer drops 4-3 game here

The Mercer Mortuary baseball squad failed to match the fifth inning scoring of East Alton's Fairfax at Wilson Park on Sunday, losing to the visitors 4-3 in a rain-shortened contest.

Both sides played flawless baseball. Fairfax connected with seven hits to Mercer's six. Vic Reznack struck out seven in taking the tough loss.

Jim Greenwood walked and later scored on Bob Scott's single for a Mercer fist-inning lead. Fairfax tied the game with a run in the second.

Reznack walked and Dave Huddleston and Greenwood both singled for Mercer to produce a 2-1 edge.

Fairfax then went ahead 4-2 in the fifth inning.

Trips by Mike Sprague and Greenwood in the seventh provided the final score and the game was called because of rain.

Soccer clinic

A ten-session soccer clinic, presented by the Tri-City Area YMCA for boys who are six and seven years old (born in 1968 or 1969) will start Thursday under the supervision of Ruben Mendoza, former Olympics soccer star.

During the three-week sessions, soccer fundamentals will be taught and there will be scrimmage games.

Those wishing to register may do so at the YMCA, 20th Street and Edison Avenue, or at the Madison Sporting Goods, 2740 Madison Ave. Fee is \$5 per boy.

TAKE STEREO FROM CAR

A vent was used to gain entry into the auto of Larry Jones, 3761 Sunnyside Drive, parked at Granite City High School North, and an 8-track stereo set, valued at \$100, was removed, the owner said at 5:10 p.m. Thursday.

Trojan sprint team third in state tourney

Madison High School's 400-yard relay squad took third place Saturday in the finals of the Illinois High School Association Class A State track and field meet held at Charleston, while Maple Park-Kaneland captured team honors in the first small-school state track championship meet held since 1925.

Madison tied for 19th with Farmington East and Cairo, each scoring five team points. Trojan runners Mike Williams, Joe Young, Van Dee Walker and Lamont Garrett advanced to the finals after defeating Kanland in preliminary competition with a time of 44.03.

New Lenox Providence captured the 400-yard finals in 43.67, Farmington East was second in 43.7 and Madison had a time of 43.8.

Trojan mentor Charles Steptoe believes his squad performed exceptionally well,

even though it was without the services of Warren Waggoner, a member of the district relay championship squad.

Williams replaced the sidelined starter and ran the second leg of the race in ten seconds flat, equal to 9.8 seconds in 100 yards.

"Williams was competing with a slightly pulled muscle," relates Steptoe, "which he suffered in the preliminaries."

Madison athletes who competed in other events but failed to advance to the finals were: Williams in the 100-yard hurdles (1:15.5) and Young in the 100-yard dash (1:03.39).

Maple Park-Kaneland garnered 34 points to 16 by Granite City-Farmington and Hoopston East, 10 by Probststown-Hanock Central and Mahomet-Seymour and eight each by Mount Sterling-Brown County, Planagan, Stillman Valley, Clifton Central and Watseka.

Rusick 4th in state tennis

Granite City High School South netman Bill Rusick, 17, seeded third in this weekend's state tennis tournament among those in singles competition at Arlington Heights, Ill., lost his bid for state championship but finished a strong fourth.

He played relatively even with the top players in the state. The local senior, who went to state for the third consecutive year after capturing his third straight district singles title here a week ago, drew a first-round bye.

He then blasted Luke Woeg of Arlington Heights 6-0 and 6-2, to advance.

Rusick gave the eventual state singles champion, Ed Starn of Hinsdale Central, close tough competition before bowing 4-6, 4-6, in a semifinal match.

He next lost an attempt for third place, being nipped 2-6, 7-5, 4-6 by Chicago Heights' Marion's Billy Nichols.

Starn took the title by beating Matt Horyvitch of Highland Park 6-7, 6-2, 6-4.

Hinsdale also captured the doubles competition, having advanced both of its doubles teams into the final round.

Warrior Coach Dick Harmon credited Rusick with the best serves in the tournament and voiced high hopes for his tennis future.

The coach said the principal handicap to entrants from this region is that the overall caliber of opponents met during the season is not quite on par with that in Northern Illinois.

GCHS South totaled six points. Hinsdale Central won with 26 points, followed by New Trier East 17, Deerfield 15 and Arlington 13.

Schooley 8th in statewide low hurdles

Granite City High School South track athlete Tom Schooley took eighth place Saturday in 330-yard low hurdle competition at the Class AA state track and field meet at Eastern Illinois University.

East St. Louis Senior High won top team honors.

The senior Warrior, who was third in the state meet last year, was the only Granite City athlete to advance into final competition.

He moved into the finals with a preliminary run Friday of :37.82, fourth fastest of the field.

His finals time was :38.64, slightly off the pace of 38.2 seconds he posted in capturing district honors in the event.

Athletes from both GCHS South and GCHS North who competed in the state meet but were eliminated in preliminary competition were:

North's Tom Stevenson in the long jump (20-7 1/2); North's Rick Demaree in the high jump (6-2).

North's Bob Sampson in the pole vault (13-6); South's Dwayne Torry in the mile run (4:23.40); and South's Doug Phillips and Rockford East.

Maywood-Proviso East tallied 14, Alton 12, Joliet East and Oak Lawn 11 each.

Evanson, Elmhurst-Vernon, Hinsdale-Proviso West nine, Elmhurst-Proviso West eight, and Rock Island and Sabers, seven points apiece.

The state model and sportsman class stock car racing will resume Saturday, May 31, at 7:30 p.m.

Legion Steelers win, tie in rain

The first-year Glen Carbon American Legion Post 435 baseball squad defeated host Gillespie 7-4 Sunday in the top half of a scheduled doubleheader, and then settled for a 4-6 tie in the second game when rain forced the activity to be halted in the fifth inning.

Granite City's Mike Stanton picked up the win on the mound after finishing starter Ray Smith in the fourth inning.

The local squad collected nine hits.

With the scored deadlocked at 4-4 going into the sixth inning, the Post 435 Steelers got the tie-breaking run and added two more. Jeff Reiter singled, Ed Kowalski of Assumption tripled, Rich Schmidt doubled and Doug Page of GCHS North doubled.

The Steelers scored two runs in the third on a walk, a triple by Kowalski and a hit by Page.

They added two runs in the fourth on consecutive hits by Billy Carr, Reiter, Kowalski and Page.

Post 435 will next meet the Granite City Braves in a non-league contest at Wilson Park tomorrow, beginning at 6 p.m.

BOWLAND BURGLARY
Bowland Lanes, 5050 Nameoki Road, was burglarized Monday while the business was closed, and an estimated \$3,000 worth of alcoholic beverages, cigarettes and money from vending machines was taken. The theft was reported to the Madison County Sheriff's Department at 4:55 p.m. by an employee. Entry was gained by forcing air vents.

Arrests in liquor store incident

Three Madison men were arrested on charges of theft Monday, resulting from an incident at Corral Liquors, 3304 Nameoki Road, when the trio allegedly left the store with a carton of cigarettes and two bottles of vodka.

The vehicle driven by the threesome was located by Madison police. Booked at Granite City was Jimmy C. Moran, 24, of 2120 Hildebrand Ave., Gregory P. Vancil, 21, of 41 Greener Homes, and Rickie Eugene Teller, 21, of 2105 Troy Ave., all of Madison.

The operator of the liquor store told police at 4:40 p.m. Monday that two men remained talking near the cash register while a third man walked to the rear of the building.

The cashier reportedly saw one man walk out of the store with the cigarettes and three were approached in their auto by the store operator. He told the men he also had two bottles of liquor inside his shirt.

Initially, the man offered to return the cigarettes, but refused to return the liquor and grabbed back the carton when the store manager insisted the store be searched. The vehicle then left the scene.

Victor Anderson retirement request approved by board

The Granite City Board of Education officially accepted the retirement request of Victor Anderson, comptroller for the district since March 22, 1967, and an employee of the school district since September 1947, during a special meeting Monday night at the board office.

Tully Heubner, as administrator in charge of business affairs, has been working with Mr. Anderson since March to become acquainted with board procedure on purchases and other financial programs.

Board members agreed to hire Billy Jones, 2729 18th St., as a school custodian for \$100 a month.

Other retirement requests accepted by the board, with regrets, include Ruth Mitchell, school nurse, who will retire after June 8; Fern Hahn, South High School secretary, effective July 31; and Mrs. Judith Curtis, North High School economics teacher after June 6.

Others who requested leaves of absence were Catherine Drake, Nidringhaus teacher; Beverly Hartenbach, South High math teacher; Catherine

Hillen, North High School English teacher; Laura Horvat, EMH teacher at Wilson; Jean Kilbarr, Wilson upper primary teacher; and Carlene Buehner, librarian at Coolidge Junior High School.

The creation of a department head in the Speech Department at South High School and also English Department chairman at North High School were approved by the board members.

Richard King, a speech department teacher at South High School, will be compensated for extra curricular pay for services he has provided this school year with board approval.

Dr. Goni Michaeloff has been chairman of both the English and Speech Departments at North High School. With the creation of the department chairman to separate both departments at the high school levels, the board will approve persons to fill the positions at a later meeting.

The next regular board meeting will be held at 7:30 p.m., on Tuesday, June 10.

Summer classes at South, North

GCIS North and GCIS South will both be attendance centers for summer school (grades 9-12) this summer.

Summer session begins at 8 a.m. June 10 and ends at 12 noon July 25.

Both schools will offer the same basic curriculum to their students, but because of past enrollments and the physical facilities, certain classes will be offered only at one of the centers.

Those classes scheduled at only one center are: Stenography I — South. Tennis — South. Wrestling — South. Golf — North.

Trigonometry — North. Welding I — South. Driver training — South. Students are to attend their "home" schools unless they desire one of these seven

courses in which case they will take all course work at the "sister" school.

All public school students are to register with their current counselors during the week of June 2 through 6.

Marching students will register in the guidance office of their respective high schools June 2 to 6.

The cost is \$3 and is non-refundable. As in the past, students will be allowed a total of three class absences before being dropped from the class. Late registration will begin Tuesday, June 10, and those registering late will lose that day of attendance as well as being allowed to enroll only in classes where there is "room."

Students are to attend their "home" schools unless they desire one of these seven

Student injured

Thomas Walker, 17, of 1635 Third St., Madison, was injured by a cut near his left eye and abrasions to the upper and lower lip following an altercation at Madison High School.

Just prior to the start of school at 8:30 a.m. Friday, he was x-rayed and released.

His family also took him to a dentist because two teeth had been knocked out and one loosened.

MHS Principal Richard Corbin said, "When the fight broke out I immediately gave orders to call the police. We also called a group of key parents who came to the school to help avoid any further trouble from breaking out."

"Madison police were in the area and did an excellent job of sending students to school or home."

"I told students who were just milling around to go their classes or go home, and I had secretaries telephone parents of several students who were sitting around in the hall."

"I suspended two students who were involved."

"If students want to 'mess around,' it could cause them to be put out of school for at least a half-year, or permanently. And if they are seniors, they will not graduate."

Nearly all MHS students attended classes Friday.

The injured boy's mother said her son was jumped upon by two other youths.

The cause of the incident was not clear.

It was felt by school officials that the trouble may have been a carryover from a fight at a restaurant at 1118 Madison Ave. at 9:30 p.m. Thursday.

One youth reported to police

that his car window was broken out near the Burger Chef and police dispersed a gathering of youths at the restaurant.

At 10:30 a.m. Thursday, a Madison police officer in an unmarked car noticed an "unusual caravan of motor vehicles" turned in at the

Avenue as if to head toward the Garesche School.

The vehicles, including a van, were stopped and the occupants were questioned.

Six juveniles were arrested for curfew violations and two two-inch by four-foot metal pipes, several rocks, clubs and ball bats were confiscated.

Reaffirms that rebates exempt from taxation

Federal taxpayers who get a federal income tax rebate will not have to declare it on next year's federal income tax return, State Revenue Director Robert H. Allin reiterated today.

Officers of the U. S. Internal Revenue Service estimate that more than four million Illinois residents will get a rebate, based on their 1974 federal income tax returns filed this year.

The rebates are in addition to a federal tax credit and tax refund taxpayers may have coming.

Allin said the rebate money will not be taxed in Illinois because it will not be considered as taxable income on next year's federal return.

"The federal income tax system 'piggybacks' the federal system," he said, "and whatever is tax-exempt for federal purposes is generally not taxed in Illinois."

PROVIDING ENERGY IS OUR BUSINESS. USING ENERGY WISELY IS EVERYBODY'S BUSINESS.

Nights are safer, property is more secure with the new Directional Security Nite Lite

Outdoor lighting is recognized as one of the most effective safety and security measures for any business, farm or home. As such, it's a wise use of energy.

The Directional Security Nite Lite provides powerful all night illumination with new flexibility. Unlike the conventional Nite Lite, which floodlights a broad area from a fixed position, the Directional Security Nite Lite can be aimed to illuminate a specific location.

The unit includes a reflector behind

the bulb to increase the intensity of illumination.

The new Directional Nite Lite operates automatically, turns on at dusk and off at dawn. It is available in two sizes: 400 watt and 1,000 watt mercury vapor floodlights. A fixed monthly rental fee covers installation on Illinois Power poles, maintenance and all electricity the light uses.

For complete information, ask at our office.

Delay zoning action

A request by Harold and George Baumann for rezoning of property at 2104 Harrison Avenue near Highway 203 and Wabash Avenue from its present R-4 single family residential district to a B-3 business classification is being held in abeyance by the Madison County Board.

Board member Louis Whitell, supervisor of Nameoki Township, requested that the board not act upon the request until he had an opportunity to study it further.

The Baumanns said they wish to put business and professional offices at that site. The Madison County Zoning Board of Appeals held a public hearing on the property April 22 and recommended the request for a B-3 zoning be denied.

The appeals group recommended that the County Board grant instead a special use permit for business and professional offices with the stipulation that there be no retail sales allowed on the premises.

The board is to reconsider the request at its June meeting.

Special use permits were granted for three mobile homes in Chouteau township. William Hollis, property owner, and Dorthea Nicholas, occupant of a mobile home, were granted a permit to place the unit in an agricultural district of Chouteau Township three-fourths of a mile south of Wanda on Wanda-Peag Road for the lifetime of Dorthea Nicholas.

Harry D. Laughlin, owner, and Stuart R. Laughlin, a mobile home occupant, were granted a permit to place a mobile home at 380 Lakeview Drive in Tank Town near Pontoon Beach, an R-3 single-family residential district of Chouteau Township. The permit will remain in effect for up to five years for the Stuart Laughlin family only.

The third permit issued for a mobile home was to Carl Mahurin to place the unit at 183 Big Four Place in Mitchell, an R-4 single family residential district of Chouteau Township. The permit is for the lifetime of Carl Mahurin and for his sole occupancy.

Cast iron is workshop topic

An outdoor workshop in cast iron, designed to involve the community as well as students, is scheduled June 16 at the Wagner Complex of the Southern Illinois University at Edwardsville department of art and design.

Kenneth G. Ryden, head of the sculpture area of the department of art and design, will conduct the workshop with the assistance of Wayne Potratz, visiting sculptor from the University of Minnesota.

"The workshop will launch a bi-centennial emphasis in cast iron that will continue throughout the bi-centennial year," Ryden said.

"Enrollment will be limited, but students and members of the community in general will be invited to attend as spectators."

Ryden said, traditional methods of casting iron melted in a cupola furnace will be featured. "Usually all the facilities will be designed and built by hand," he said.

Students of advanced standing in sculpture will help conduct the workshop. "Cast iron has been an important part of our nation's industrial and social developments," Ryden explained. "Manufacture, agriculture, transportation and communication have grown concurrently with development in metals and their applications."

"The first casting made in the United States was a cooking kettle made at Lynn, Mass., in 1842. The first cupola furnace in America was built in Pennsylvania about 1820. Since that time, cast iron products and the process of making cast iron have been an important part of the nation's growth."

Ryden said the workshop will reflect on "the vast variety of works accomplished in cast iron during our nation's history." The workshop offers three hours of credit. It has a prerequisite of 12 quarter hours of intermediate level sculpture or equivalent.
